FEATURES AND BENEFITS

Shaw Pipe's Regina, Saskatchewan facility is located next to IPSCO's pipe manufacturing mill which reduces logistical and management interface costs. With minimal pipe handling, damage to bare or coated pipe is reduced and repair costs are minimized.

This facility is capable of providing customers with a range of products that include High Performance Composite Coating (HPCC) which is an advanced composite system that represents the latest development in anti-corrosion systems. Also available from this facility are Fusion Bonded Epoxy and Dual Layer Fusion Bonded Epoxy.
